Aide pour faire les accords à la guitare

The image shows four guitar chord diagrams for the notes E, D, A, and A7. Each diagram consists of a standard six-string guitar fretboard with a treble clef and a key signature of three sharps (F#, C#, G#). The diagrams are labeled with their respective chord names: E, D, A, and A7. The E chord is shown as an open E string with a barre on the 1st fret of the other strings. The D chord is shown as an open D string with a barre on the 2nd fret of the other strings. The A chord is shown as an open A string with a barre on the 5th fret of the other strings. The A7 chord is shown as an open A string with a barre on the 5th fret of the other strings, with the 7th fret of the D string also pressed down.
