

Disco Yes

(Tom Misch feat. Poppy Ajudha)

Intro / thème

Couplet 1

A

I want to stay, but I need to go
I want to be the best for you
But I just don't know what to do
'Cause baby, yes I've cried for you
The time that we have spent together
Riding through this English weather

(entrée guitare)

And as the pressure builds
So does the tension between you and me
Time has gone so fast
Watching the leaves fall from our tree

B

Baby, I just want you to know
I still love you, love you, love you, love you, love you, love you... uh uh

Thème

Couplet 2 [Poppy Ajudha]

A

And the grass is always greener on the other side
Maybe you should come and take a trip sometime
Oh you seem keener when they turn to night
But you tripping out your mind
Baby, tell me it's a sign

(entrée guitare)

As the pressure builds
So does the tension between you and me
Time has gone so fast
Watching the leaves fall from our tree

B

Baby, I just want you to know
I still love you, love you, love you, love you, love you...
