

# **Bleed me dry**

## **Couplet 1**

You say I can run away if I wanna go  
But you don't think I could stand it stand it  
Hollow words you say just to keep me low  
And you claim that demand it demand it

How did we get here I swear you were never always so cruel  
You say we're in it together somehow I'm always playing the fool

## **Pré-refrain**

You're gonna bleed me dry with both my hands untied  
You're gonna bleed me dry  
Bleed me dry yeah

## **Refrain**

'Cos that's what you like  
You're gonna bleed me dry  
You're gonna bleed me dry

## **Couplet 2**

Every time I try getting through to you  
Oh you fire up the gaslight gaslight  
Put away my pride put away my truth  
And you're acting like its alright, alright

How did we get here I swear you were never always so cruel  
You say were in it togetner somehow I'm always playing the fool  
playing the fool
