

Haunts me

David Lauwrence

Couplet 1

Oh no

Please take it slow, give me one last call, 'fore I go

Now you've all made up your minds

That it's my time

To die

But, the truth here is different

I did all no harm

Cold-blooded killer, out on a run

Refrain

And it haunts me each night

All the fear in her eyes

And it haunts me each night

In its dark, darkest sky

Couplet 2

Oh no

Let me forgive, all the air was growing thin

We were strayed from our home

And I could feel we weren't alone

I can still hear the breathing

Can still taste the fear

Shadows are moving

But, so unclear

Refrain

Outro

Oh, you know, Oh, you know, That I feel it all (x3)

Oh, you know, Oh, you know, I feel it all
