

## Psycho

Love, it will get you nowhere  
You're on your own  
Lost in the wild  
So come to me now  
I could use someone like you  
Someone who'll kill on my command  
And asks no questions

I'm gonna make you (x3)  
A fucking psycho (x3)  
Your ass belongs to me now

Are you a human drone?  
Are you a killing machine?  
I'm in control, motherfucker, do you understand?

Your mind is just a program  
And I'm the virus  
I'm changing the station  
I'll improve your thresholds  
I'll turn you into a super drone (super drone)  
And you will kill on my command  
And I won't be responsible

I'm gonna make you (x3)  
A fucking psycho (x3)  
Your ass belongs to me now

Are you a psycho killer? Say "I'm a psycho killer!" (I am a psycho killer!)  
Scream it! (I am a psycho killer!)  
Show me your war face! (AHHHH!)  
You are a pussy! I said show me your war face! (AHHHH!)

I'm gonna make you (x3)  
A fucking psycho (x3)  
Your ass belongs to me now

I will break you, do you understand? (x4)

You fucking psycho  
Your ass belongs to me now (x2)
