

# Carousels

## **Intro**

### **Couplet 1**

Carousels twirl all around excited youth.

I do not mind at all.

Where tonight in a world full of thrills - it can carry me up,  
far above it all.

### **Refrain**

It's a long way down from here to the sound.

Watch the faces go 'round

to the stars

then the ground.

### **Couplet 2**

Ferris wheels carried us away

not so long ago.

Times I've betrayed.

Where would we be now if I had taken your hand?

Well the years they pass by slow

don't they?

### **Refrain**

It's a long way down from here to the sound.

Watch the faces go 'round

to the stars

then the ground.
